This academic map is a suggested semester-by-semester guide to keep you on a clear pathway to program completion. Your academic advisor will provide you with clear direction needed to stay on course and discuss scheduling options with you. Taking courses not reflected on this map may result in courses not counting toward the completion of your requirements.

### About Developmental Courses
Developmental courses do not satisfy graduation requirements, but they are required for those who place into them and will appear on the student’s transcript. Placement into one of the following courses indicates that a student needs additional preparation before enrolling in college-level courses:

- ENGL 091: Preparing for College Reading I
- ENGL 092: Preparing for College Reading II
- ENGL 095: Reading and Writing Seminar
- ENGL 099: Introductory Writing
- MATH 001-003: Prep College Math I-III
- MATH 010: Fundamentals of Mathematics
- MATH 011: Introductory Algebra
- MATH 060: Math Literacy

### Route to Success
Summer and/or Winter Session classes may be available for your program to help you finish on time. See your advisor and/or visit the online course search for availability.

### Ready to Go
Courses have no prerequisites or developmental courses.

### Semester-specific Course Offerings
Courses are not offered all semesters.

### Minimum Grade Requirement
Students must earn a minimum grade to remain in the program.

### Electives
For details on eligible electives, please see reverse.

Taking 15 credits/semester or 30 credits/year will help you stay on track to finish your degree in two years.
Program Notes

The courses for the Architectural Technology program must be taken in the semester sequence as shown in the Program Map. Architectural courses are only offered in specific semesters and have many prerequisites and co-requisites. This program requires two Math and two Physics courses. Students should note that the first Physics class needs to be taken in the first semester. Students will need a math placement score that is high enough to allow them to take a Physics course. For the Humanities requirement, it is recommended to take a History of Art, Anthropology, or Visual Arts course.

For students who intend to transfer to a bachelor's degree program related to Architecture, Interior Design or Construction management, it is recommended to take Math and Physics courses that are 4 credit courses. This will require a higher math placement test score.

For students who intend to transfer to a bachelor's degree program related to Architecture, please note that two year degree programs are not NAAB certified program. However, Massasoit is working on articulation agreements with local NAAB accredited architectural schools for the transfer of as many courses as possible into a NAAB program.

We highly recommend meeting with a faculty member from the Architectural Technology Program.

If students elect to take MATH 125 and PHYS 132, these courses are only offered in the fall. If students elect to take MATH 126 and PHYS 133 these courses are only offered in the spring.

Math I Elective: MATH 125 Technical Math I or higher
Math II Elective: MATH 126 Technical Math II or higher
Physics I Elective: PHYS 132 Concept of Tech Physics I, PHYS 141 Technical Physics I, PHYS 151 College Physics I, or PHYS 161 General Physics I
Physics II Elective: Must be the next sequential course of the Physics I Elective: PHYS 133 Concept of Tech Physics II, PHYS 142 Technical Physics II, PHYS 152 College Physics II, or PHYS 162 General Physics II
Other Electives: Students choosing a humanities or social science elective can select from the Course Elective Guide at massasoit.edu/electives.

A minimum of 65 credits and 21 courses is required for completion. The same course may not be used to satisfy two different course requirements.

Some courses may have prerequisites, which are courses that must be taken prior to a particular course. For details, log into DegreeWorks through your MyMassasoit portal.

After Graduation/Completion

Consider internships and/ or volunteer work in your major/minor field.

Keep in contact with the Architectural Technology department in order to build up an Alumni Network.
