### Route to Success

**Summer and/or Winter Session classes may be available for your program to help you finish on time.** See your advisor and/or visit the online course search for availability.

### Ready to Go

Courses have no prerequisites or developmental courses.

### Semester-specific Course Offerings

Courses are not offered all semesters.

### Minimum Grade Requirement

Students must earn a minimum grade to remain in the program.

### Electives

For details on eligible electives, please see reverse.

Taking **15 credits/semester** or **30 credits/year** will help you stay on track to finish your degree in two years.

### About Developmental Courses

Developmental courses do not satisfy graduation requirements, but they are required for those who place into them and will appear on the student’s transcript. Placement into one of the following courses indicates that a student needs additional preparation before enrolling in college-level courses:

- MATH 060 Math Literacy
- MATH 011 Introductory Algebra
- MATH 012 Intermediate Algebra

**College-approved Certificate**

**Electives**
For details on eligible electives, please see reverse.
Computer Repair Technician

Program Notes
This program is designed to prepare people to establish their own business or to work for a business in the Personal Computer (PC) Repair field. This program provides training in the technical field of PC repair and maintenance.

CTIM Elective: Any 3-credit CTIM course or three 1-credit CTIM courses

Some courses may have prerequisites, which are courses that must be taken prior to a particular course. For details, log into DegreeWorks through your MyMassasoit portal.

A minimum of 28 credits and 9 courses is required for completion. The same course may not be used to satisfy two different course requirements.

After Graduation/Completion
Job growth among computer support specialists reflects the rapid pace of improved technology. As computers and software become more complex, support specialists will be needed to provide technical assistance to customers and other users. New mobile technologies, such as wireless internet, will continue to create a demand for these workers to familiarize and educate computer users. Consulting opportunities for computer support specialists also should continue to grow as businesses increasingly need help managing, upgrading, and customizing ever more complex computer systems.
